

# passport — *to* empowerment

## 25 years

As a company that believes in building a more sustainable and equitable world, we're inviting you to sponsor our 25th Anniversary event. Your generous contribution will help us celebrate our history, connect with our outstanding global community and build enthusiasm for another 25 years of changing the world, one village at a time.

**25 years of tackling  
the world's most  
pressing issues at  
the village level.**

**759 million**  
people do not have  
access to electricity

**2 billion**  
people lack safely  
managed drinking water

**all of us**  
face impending threats  
from the climate crisis

## Our Work

Green Empowerment works with Indigenous and rural communities and in-country partner organizations around the world to implement clean water and renewable energy projects. This foundational infrastructure brings immediate health benefits, saves families (especially women and children) countless hours of time previously spent on menial tasks such as hauling water, and provides a springboard for economic opportunity. At the same time many of these communities are located in the most biodiverse regions on the planet. They are both highly vulnerable to and crucial partners in combating climate change.

With locals in the lead we can get ahead of further climate change consequences. Join us as we prioritize village solutions to create lasting global change.

## The Celebration

For our 25th Anniversary we are bringing back our iconic event, Passport to Empowerment. Featuring a keynote speaker, live band, drinks and cuisine from program countries and a behind the scenes look at our work, this event regularly draws 200+ attendees from Portland's international development, sustainability, and social justice communities.

Now more than ever we recognize our interconnectedness with communities across the globe and the pressing need to address climate change and global health.

**Your sponsorship supports village solutions to these global problems, and shows your company's commitment to building a better world and healthier planet.**
